Personal Property and Business Assessment -- Chapter XVI. Taxation -- Chapter XVII. Provincial-Municipal Relations -- Index
Sommario/riassunto	The student who would understand the government of a country can only obtain a complete knowledge of it if he knows something of the government of its local subdivisions. Yet the Canadian student will find studies of Canadian local government almost non-existent. Similarly the citizen or municipal officer looking for details of the organization and operation of the several systems of local government in Canada needs, but has not yet had, one single source with all the information on the subject gathered together in readily available form. Mr. Crawford meets both needs in his excellent study, the sixth volume in the

Canadian Government Series. Since local government in Canada comes under provincial jurisdiction, there are ten distinct systems having many similarities and diversities. Mr. Crawford's aim is to show how various Canadian municipal systems function, rather than to present a critical analysis of existing institutions and practices. But first he discusses the necessity of local government, its practical and political importance, the degree of self-government involved in local government and the factors contributing to this, and the weak constitutional position of local government, a position offset by the needs of the community, needs which can be best met by local government and which assure the continuance of that government despite the tightening of central control by province and nation.

2. Record Nr.	UNISA996393656603316
Autore	Paravicino Pietro
Titolo	Choice phrases, set forth in questions and answers in Italian, rendered into English [[electronic resource]] : wherein all the chief difficulties about the particles, in the said language, are made easie by examples; each line being a sentence, to the end that the learner may the better retain them in his memory: to which are added in this second impression, many other choice phrases, short dialogues; and a pretty discourse of commerce: he that shall read this little book twice may easily understand any Italian author in prose. Lately published and well corrected by P.P. Master of the Italian tongue, and approved of by other masters of the said tongue, to be a work very useful, not only for those who begin to learn; but also for those who desire to attain to the perfection thereof; the only way to learn a language is to learn it in its proper phrases
