Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Little rain? -- It gets hot! -- Desert plants -- Desert animals adapt -- Cold deserts -- Help your biome home!
Sommario/riassunto	Deserts are the driest places on Earth, but they're full of life. Cacti, kangaroo rats, shrubs, foxes, and more have found ways to adapt to the extreme temperatures and dry conditions of deserts around the world. In this book, readers learn about many of these adaptations as well as the major features of the desert biome.
