### Sommario/riassunto

In The Text of the Hebrew Bible and its Editions some of the top world scholars and editors of the Hebrew Bible and its versions present essays on the aims, method, and problems of editing the biblical text (s), taking as a reference the Complutensian Polyglot, first modern edition of the Hebrew text and its versions and whose Fifth Centennial was celebrated in 2014. The main parts of the volume discuss models of editions from the Renaissance and its forerunners to the Digital Age, the challenges offered by the different textual traditions, particular editorial problems of the individual books of the Bible, and the role played by quotations. It thus sets a landmark in the future of biblical editions.
