

1. Record Nr.	UNINA9910149709603321
Titolo	DIS 2000 : 8th International Workshop on Deep Inelastic Scattering : University of Liverpool, Liverpool, 25-30 April 2000 // editors, J.A. Gracey & T. Greenshaw
Pubbl/distr/stampa	Singapore ; ; River Edge, NJ : , : World Scientific, , [2001] ©2001
ISBN	981-4542-71-7 981-4525-78-2
Descrizione fisica	1 online resource (774 pages) : illustrations
Disciplina	539.7/58
Soggetti	Deep inelastic collisions Photonuclear reactions Particles (Nuclear physics) - Diffraction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Proceedings of the 8th International Workshop on Deep Inelastic Scattering (DIS 2000)--T.p. verso.
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	This volume focusses on four main topics: structure functions, tests of quantum chromodynamics, physics at the highest Q <sup>2</sup> and p <sub>T</sub> , and high energy scattering and diffraction. Comprehensive review articles on hadronic and photon structure, lepton-parton and parton-parton physics as well as future experimental opportunities are presented, together with a special lecture on HERA's legacy after the first decade of operation.--Publisher's website.

2. Record Nr.	UNINA9910786633703321
Titolo	Sturkie's avian physiology // edited by Colin G. Scanes
Pubbl/distr/stampa	London, England : , : Academic Press, , 2015 ©2015
ISBN	0-12-407243-7
Edizione	[Sixth edition.]
Descrizione fisica	1 online resource (1055 p.)
Disciplina	571.18
Soggetti	Birds - Physiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Part I. Undergirding themes -- Part II. Sensory biology and nervous system theme -- Part III. Organ systems theme -- Part IV. Metabolism theme -- Part V. Endocrine theme -- Part VI. Reproductive theme -- Part VII. Cross cutting themes.
Sommario/riassunto	Sturkie's Avian Physiology is the classic comprehensive single volume on the physiology of domestic as well as wild birds. The Sixth Edition is thoroughly revised and updated, and features several new chapters with entirely new content on such topics as migration, genomics and epigenetics. Chapters throughout have been greatly expanded due to the many recent advances in the field. The text also covers the physiology of flight, reproduction in both male and female birds, and the immunophysiology of birds. The Sixth Edition, like the earlier editions, is a must for anyone intere
