

1. Record Nr.	UNINA9910150198903321
Autore	Grady Colin
Titolo	Geothermal energy / / Colin Grady
Pubbl/distr/stampa	New York : , : Enslow Publishing, , 2017
ISBN	0-7660-8283-0
Descrizione fisica	1 online resource (24 pages) : color illustrations, color map
Collana	Saving the planet through green energy
Disciplina	621.44
Soggetti	Geothermal engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	ch. 1. Heat from under the ground -- ch. 2. Harnessing heat from hot water -- ch. 3. Making electricity -- ch. 4. Heating homes and buildings -- ch. 5. The future of geothermal energy.
Sommario/riassunto	In this book, readers learn about geothermal energy, the clean energy source used to heat or cool buildings and to make electricity without polluting our planet. There are future plans for using this geothermal energy on a wider level, so learn more about this exciting resource.
