 17.1 Introduction -- 17.2 What is environmental accounting? -- 17.3  
 How does environmental accounting work? -- 17.4 What is  
 environmental accounting used for? -- 17.5 Types of environmental  
 accounting -- 17.5.1 Natural resource asset accounts -- 17.5.2  
 Pollution and material physical flow accounts -- 17.5.3 Monetary and  
 hybrid accounts -- 17.5.4 Environmentally-adjusted macroeconomic  
 aggregates -- 17.6 Problems with environmental accounting -- 17.7  
 Summary -- 17.8 Chapter glossary -- Appendix 1: Answers to self-  
 check questions -- Appendix 2: Answers to self-study questions --  
 Appendix 3: Answers to case study questions -- Appendix 4: Answers  
 to revision sections -- Index.

## Sommario/riassunto

Were you looking for the book with access to MyAccountingLab? This  
 product is the book alone, and does NOT come with access to  
 MyAccountingLab. Buy Accounting and Finance for Business with  
 MyAccountingLab access card, 1/e (ISBN 9780273774051) if you need

access to the MyAccountingLab as well, and save money on this brilliant resource. Accounting and Finance for Business provides a comprehensive coverage for those who are coming to the subject of accounting and finance for the first time, at either undergraduate or postgraduate level. With many case studies using real-life companies across a range of industries and countries, the text brings the subject to life by applying theory to practice wherever possible. The authors have adopted a very clear writing style - avoiding jargon wherever possible - and the many illustrations serve to make the text clear and accessible. Current topics such as Environmental Accounting have been included to ensure the text's relevance to contemporary university accounting and finance courses. Key features: Includes nearly 500 questions and three complete practice exam papers A running case study to link theory to practice Many fully worked exercises showing step-by-step how to solve problems QR codes used throughout to give you fast access to relevant web materials Focuses on 'real world' international case studies, examples include Tesco, Facebook, Puma, Groupon and Walmart Includes chapters on Decision Making, Environmental Accounting and Contemporary Issues in Finance Fully up-dated in line with current International Financial Reporting Standards (IFRS) Need extra support?
