

1. Record Nr.	UNINA9910458514103321
Titolo	Into the cosmos : space exploration and Soviet culture / / edited by James T. Andrews and Asif A. Siddiqi
Pubbl/distr/stampa	Pittsburgh, Pennsylvania : , : University of Pittsburgh Press, , 2011 ©2011
ISBN	0-8229-7746-X
Descrizione fisica	1 online resource (343 pages) : illustrations
Collana	Pitt Series in Russian and East European Studies
Disciplina	629.40947
Soggetti	Astronautics - Soviet Union - History Astronautics and state - Soviet Union Astronautics - Social aspects - Soviet Union Popular culture - Soviet Union Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.

2. Record Nr.	UNINA9910716343703321
Titolo	Authorizing the Secretary of the Navy to turn over the gunboat "Wolverine" to the municipality of Erie, Pa. June 21, 1926. -- Committed to the Committee of the Whole House on the State of the Union and ordered to be printed
Pubbl/distr/stampa	[Washington, D.C.] : , : [U.S. Government Printing Office], , 1926
Descrizione fisica	1 online resource (2 pages)
Collana	House report / 69th Congress, 1st session. House ; ; no. 1524 [United States congressional serial set] ; ; [serial no. 8534]
Altri autori (Persone)	ButlerThomas S <1855-1928> (Thomas Stalker), (Republican (PA))
Soggetti	Unexploded ordnance Gunboats Legislative amendments Legislative materials.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Batch processed record: Metadata reviewed, not verified. Some fields updated by batch processes. FDLP item number not assigned.

3. Record Nr.	UNINA9910150214403321
Autore	Stallings William
Titolo	Business data communications : infrastructure, networking and security // William Stallings, Thomas Case
Pubbl/distr/stampa	Boston : , : Pearson, , [2013] ©2013
ISBN	0-273-77530-8
Edizione	[Seventh, international edition.]
Descrizione fisica	1 online resource
Collana	Always learning
Disciplina	658.054
Soggetti	Business - Data processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (pages 581-583) and index.
Nota di contenuto	Cover -- Contents -- Online Resources -- Preface -- About the Authors -- Chapter 0 Reader's and Instructor's Guide -- 0.1 Outline of This Book -- 0.2 Topic Ordering -- 0.3 Internet and Web Resources -- 0.4 Useful Publications -- Chapter 1 Introduction -- 1.1 Information and Communication -- 1.2 Data Communications and Networking for Today's Enterprise -- 1.3 Convergence and Unified Communications -- 1.4 The Nature of Business Information Requirements -- 1.5 The Transmission of Information -- 1.6 Distributed Data Processing -- 1.7 The Internet and Distributed Applications -- 1.8 Networks -- 1.9 Management Issues -- 1.10 Standards -- 1.11 Key Terms, Review Questions, and Problems -- Appendix 1A Prefixes for Numerical Units -- PART ONE: REQUIREMENTS -- Chapter 2 Business Information -- 2.1 Audio -- 2.2 Data -- 2.3 Image -- 2.4 Video -- 2.5 Performance Measures -- Application Note: File Sizes -- 2.6 Summary -- 2.7 Key Terms, Review Questions, and Problems -- Chapter 3 Distributed Data Processing -- 3.1 Centralized Versus Distributed Processing -- 3.2 Forms of Distributed Data Processing -- 3.3 Distributed Data -- 3.4 Networking Implications of DDP -- 3.5 Big Data Infrastructure Considerations -- Application Note: Distributed Computing Support -- 3.6 Summary -- 3.7 Key Terms, Review Questions, and Problems -- PART TWO: DATA COMMUNICATIONS -- Chapter 4 Data Transmission -- 4.1 Signals for Conveying Information -- 4.2 Transmission Impairments and Channel Capacity -- Application Note: Analog Signals

-- 4.3 Summary -- 4.4 Key Terms, Review Questions, and Problems -- Chapter 5 Data Communication Fundamentals -- 5.1 Analog and Digital Data Communications -- 5.2 Data Encoding Techniques -- 5.3 Asynchronous and Synchronous Transmission -- 5.4 Error Detection -- Application Note: Devices, Encoding, Communication Parameters, and Protocols -- 5.5 Summary.

5.6 Key Terms, Review Questions, and Problems -- Chapter 6 Data Link Control and Multiplexing -- 6.1 Flow Control and Error Control -- 6.2 Motivation for Multiplexing -- 6.3 Frequency-Division Multiplexing -- 6.4 Synchronous Time-Division Multiplexing -- Application Note: Changing Communications -- 6.5 Summary -- 6.6 Key Terms, Review Questions, and Problems -- Appendix 6A: High Level Data Link Control Protocol -- PART THREE: THE INTERNET AND DISTRIBUTED APPLICATIONS -- Chapter 7 The Internet -- 7.1 The Structure of the Internet -- 7.2 Internet Domains -- 7.3 Dynamic Host Configuration Protocol -- Application Note: Fitting DNS into Your Organizational Structure -- 7.4 Summary -- 7.5 Key Terms, Review Questions, and Problems -- Chapter 8 TCP/IP -- 8.1 A Simple Protocol Architecture -- 8.2 The TCP/IP Architecture -- 8.3 Internetworking -- 8.4 Virtual Private Networks and IP Security -- Application Note: Practical Guide to Networking -- 8.5 Summary -- 8.6 Key Terms, Review Questions, and Problems -- Appendix 8A: TCP, UDP, and IP Details -- Appendix 8B: The Trivial File Transfer Protocol -- Chapter 9 Client/Server, Intranet, and Cloud Computing -- 9.1 The Growth of Client/Server Computing -- 9.2 Client/Server Applications -- 9.3 Middleware -- 9.4 Intranets -- 9.5 Extranets -- 9.6 Service-Oriented Architecture -- 9.7 Cloud Computing -- Application Note: To Be Fat or Thin-That Is the Question -- 9.8 Summary -- 9.9 Key Terms, Review Questions, and Problems -- Chapter 10 Internet-Based Applications -- 10.1 Electronic Mail -- 10.2 Web Access and HTTP -- 10.3 Web Security -- 10.4 Multimedia Applications -- 10.5 Acceptable Use Policies -- Application Note: To Serve or Not to Serve -- 10.6 Summary -- 10.7 Key Terms, Review Questions, and Problems -- Chapter 11 Internet Operation -- 11.1 Internet Addressing -- 11.2 Internet Routing Protocols -- 11.3 Multicasting.

11.4 Quality of Service -- 11.5 Differentiated Services -- 11.6 Service Level Agreements -- 11.7 IP Performance Metrics -- Application Note: Where Does My Network Address Come From? -- 11.8 Summary -- 11.9 Key Terms, Review Questions, and Problems -- PART FOUR: LOCAL AREA NETWORKS -- Chapter 12 LAN Architecture and Infrastructure -- 12.1 Background -- 12.2 LAN Configuration -- 12.3 Guided Transmission Media -- 12.4 LAN Protocol Architecture -- Application Note: Cabling Infrastructure -- 12.5 Summary -- 12.6 Key Terms, Review Questions, and Problems -- Appendix 12A: Decibels and Signal Strength -- Chapter 13 Ethernet, Switches, and Virtual LANs -- 13.1 Traditional Ethernet -- 13.2 Bridges, Hubs, and Switches -- 13.3 High-Speed Ethernet -- 13.4 Virtual LANs -- 13.5 Power over Ethernet -- Application Note: Networking with Ethernet -- 13.6 Summary -- 13.7 Key Terms, Review Questions, and Problems -- Chapter 14 Wireless LANs -- 14.1 Overview -- 14.2 Wi-Fi Architecture and Services -- 14.3 IEEE 802.11 MAC and Physical Layer Standards -- 14.4 Gigabit WLANs -- 14.5 IEEE 802.11 Security Considerations -- Application Note: Deploying WLANs -- 14.6 Summary -- 14.7 Key Terms, Review Questions, and Problems -- PART FIVE: WIDE AREA NETWORKS -- Chapter 15 WAN Technology and Protocols -- 15.1 Switching Techniques -- 15.2 Circuit-Switching Networks -- 15.3 Packet-Switching Networks -- 15.4 Traditional Wide Area Network Alternatives -- 15.5 Voice Over IP -- 15.6 Presence -- 15.7 Summary -- 15.8 Key

Terms, Review Questions, and Problems -- Chapter 16 WAN Services -- 16.1 Wide Area Networking Alternatives -- 16.2 Frame Relay -- 16.3 Asynchronous Transfer Mode (ATM) -- 16.4 Multiprotocol Label Switching (MPLS) -- 16.5 Wide Area Ethernet -- Application Note: Off-Site Connectivity Solutions -- 16.6 Summary -- 16.7 Key Terms, Review Questions, and Problems.

Chapter 17 Wireless WANs -- 17.1 Cellular Wireless Network -- 17.2 Multiple Access -- 17.3 Third-Generation Wireless Communication -- 17.4 Fourth-Generation Wireless Communication -- 17.5 Satellite Communications -- Application Note: Laptops, Netbooks, PDAs, and Cell Phones -- 17.6 Summary -- 17.7 Key Terms, Review Questions, and Problems -- PART SIX: MANAGEMENT ISSUES -- Chapter 18 Computer and Network Security Threats -- 18.1 Computer Security Concepts -- 18.2 Threats, Attacks, and Assets -- 18.3 Intruders -- 18.4 Malicious Software Overview -- 18.5 Viruses, Worms, Bots, and Spam -- 18.6 Keyloggers, Phishing, Spyware -- 18.7 Computer Security Trends -- 18.8 Summary -- 18.9 Key Terms, Review Questions, and Problems -- Chapter 19 Computer and Network Security Techniques -- 19.1 Virtual Private Networks and IPsec -- 19.2 SSL and TLS -- 19.3 Wi-Fi Protected Access -- 19.4 Intrusion Detection -- 19.5 Firewalls -- 19.6 Malware Defense -- Application Note: Security Layers -- 19.7 Summary -- 19.8 Key Terms, Review Questions, and Problems -- Appendix A: Projects for Teaching Business Data Communications -- A.1 Animations and Animation Projects -- A.2 Practical Exercises -- A.3 Wireshark Projects -- A.4 Research Projects -- A.5 Security Case Studies -- A.6 Reading/Report Assignments -- A.7 Writing Assignments -- Glossary.

Sommario/riassunto

Business Data Communications and Security covers the fundamentals of data communications, networking, distributed applications, and network management and security. These concepts are presented in a way that relates specifically to the business environment and the concerns of business management and staff. While making liberal use of real-world case studies and charts and graphs to provide a business perspective, the book also provides the student with a solid grasp of the technical foundation of business data communications. The diverse set of projects and student exercises enables the instructor to use the book as a component in a rich and varied learning experience and to tailor a course plan to meet the specific needs of the instructor and students. The Seventh edition features a new co-author, Dr. Thomas L. Case, Professor and Chair of the Department of Information Systems at Georgia Southern University. New coverage of security-related issues is included in relevant places throughout the book to meet the needs of the IT/IS schools using this book and the growing emphasis on network security. Additionally, the Seventh edition now aligns with the ACM/AIS IS 2010 curriculum model.
