Economic profit -- Economic value added (EVA®) -- Total shareholder
return (TSR) -- Wealth Added Index (WAI) -- Market Value added (MVA).
Excess return (ER).

Sommario/riassunto

Explore how finance theory works in practice with Corporate Financial Management, 5th edition. Find out how financial decisions are made within a firm, how projects are appraised to make investment decisions, how to evaluate risk and return, where to raise finance from and how, ultimately, to create value.
