Sommario/riassunto	Teaching Exceptional Children is an ideal textbook for introductory graduate and undergraduate courses on early childhood special education and teaching in inclusive classrooms. Bayat's clear and accessible writing, a visually appealing design, and focused pedagogy in each chapter help make it possible to cover a significant amount of material. This powerful text identifies specific behavioral characteristics and presents theoretical information grounded in neuroscience and child development research for a wide range of disabilities. Research-based best practices for effectively working with children with various disabilities in inclusive classrooms are provided in each chapter. The second edition has been fully updated based on the DSM-5 , and includes new sections on contemporary issues in inclusion of children with disabilities in early childhood classrooms, such as challenging behaviors, using technology, at-risk children, promoting mental health,

and family issues. A robust pedagogical program, along with online resources for instructors and students, provides full support, including: Chapter Objectives and Key Terms help frame each chapter. Discussion, Critical Thinking, Essay/Short Answer, and Review Questions at the beginning, throughout, and concluding chapters prompt students to fully engage with the material. Homework/Field Assignments provide opportunities for students to apply their knowledge to real-world situations. Real-Life Vignettes illustrate concepts in action. Color Photos, Figures, and Tables clarify concepts in a visually engaging way. Recommended Resources and References offer guidance for further study. The companion website, <http://routledgetextbooks.com/textbooks/9781138802209>, includes instructor resources for teaching and planning, including an Instructor's Manual with additional ideas for assignments and projects, web links, and video links with reflection questions; a test bank; and PowerPoint lecture slides. The site also includes tools for students to engage with and master the concepts and terminology introduced in the book.
