Livello bibliografico	Monografia
Sommario/riassunto	Edson states categorically the he is the reincarnation of Sherlock Holmes. When a mysterious murder occurs in the Psychiatric Hospital of SaintGenoveva, in which he is a patient, the so-called detective decides to use all his skill and cunning to solve the crime. But not everything seems to be what it is, and not always deduction and logic can identify the true suspects.Sanatorium is a unpretentious rereading of the legendary character of Arthur Conan Doyle, bringing a Sherlock Holmes that you have never imagined.
