Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book will engage all those interested in European lake dwellings, wetland archaeology and the history of archaeology in the 19th century. The collected papers explore the historical context of the work of Robert Munro (1835-1920), as well as introducing current research from across Europe. The book will appeal to both the professional and the interested amateur, of which Munro himself represented such an exciting synthesis.
