| Sommario/riassunto | <p>About the Punjabi Language</p> <p>Punjabi is an Indo-Aryan language of the Indo-European language family. It is unique for being the only tonal language in this family. There are ten Punjabi dialects which are mostly mutually intelligible. This course teaches the Eastern Punjabi dialect as spoken in India. Punjabi is spoken by approximately 110-112 million people world-wide. It is an official language in the Indian states of Punjab, Haryana and Himachal Pradesh, and is also spoken elsewhere in northwestern India. Although not considered an official language in Pakistan, it is spoken by the majority in the Pakistani province of Punjab. It is also spoken by expatriate communities in Bangladesh, Canada, Fiji, Kenya, Libya, Malaysia (Peninsular), Mauritius, Singapore, United Arab Emirates, United Kingdom, and the United States. In Canada, Punjabi is thought to be the sixth most frequently spoken language. Punjabi is most commonly written using the Gurmukhi script. The reading lessons in this course teach how to read the Gurmukhi alphabet. The Pimsleur® Method is scientifically proven to be your fastest route to near-native fluency. Speak and understand Punjabi in just 30 minutes a day. Punjabi Phase 1, Units 16-20 build on material taught in prior units. Each lesson provides 30 minutes of spoken language practice, with an introductory conversation, and new vocabulary and structures. Detailed instructions enable you to understand and participate in the conversation. Each lesson contains practice for vocabulary introduced in previous lessons. The emphasis is</p> |

on pronunciation and comprehension, and on learning to speak Punjabi.
