	Sommario/riassunto	The only book dedicated Sniffer, a powerful tool created for real-time enterprise network fault diagnosis and performance management. Sniffer Network Optimization and Troubleshooting Handbook introduces the reader to the vast functionality of the suite of Sniffer Solutions from Network Associates but ultimately focuses on the

affordable and most widely used Sniffer Product - Sniffer Pro LAN Network Analyzer. This book will begin with the basic features of Sniffer Pro LAN and then move the reader through the impressive tips and tools available for gathering data, analyzing, troubleshooting, resolving and securing problems on their network. In today's day and age a company is judged by the quality of it is network. To ensure sustained network performance and to avoid costly network downtime, network administrators need to be proficient with advanced networking monitoring and troubleshooting solutions, like Sniffer, to be able to detect, observe, and resolve network problems before these problems impact users or customers. Sniffer from Network Associates is a suite of tools including Sniffer Portable Analysis Suite, Sniffer Distributed Analysis Suite, Sniffer Reporting, Sniffer Optical, and Sniffer Wireless. With a clear market leadership, Sniffer Solutions are employed in over 80% of the enterprise networks of the Fortune 100. Sniffer has also received wide industry acclaim from the experts and its everyday users. In 2000 Sniffer was named one of the 10 most computer products of the decade by Network Computing Magazine. It also received the "Editor's Choice" award from PC Magazine during the second quarter of 2001. Over 60,000 individuals have taken advantage of the educational services offered by Sniffer Technologies - aptly named Sniffer University. Coupled with the introduction of the Sniffer Certified Professional Program (SCPP) as a replacement for the popular CNX (Certified Network Expert) certification, an aptitude with Sniffer Solutions is a "must-have" for system administrators. Only book to offer comprehensive coverage of Sniffer Pro LAN. Supplemental study materials for the SCPP certification track. As of April 2001, the CNX certifications track became inactive. Current CNXs looking to update their certifications to the new SCPP track are going to need to bring themselves up to speed on the new offerings from the Sniffer family of products before desertification. Up to the Minute Web-based Support. Once the reader understands the concepts of network hardware, configuration, and implementation, they can receive up-to-the minute links, white papers, and analysis for one year at solutions@syngress. com.

	Sommario/riassunto	Indonesian (Bahasa Indonesia) is the official language of the Republic of Indonesia; spoken by about 227 million people. It is mutually intelligible with Malay, the language of Malaysia, with only minor differences. Pimsleur's Indonesian teaches standard Indonesian as spoken in and around Jakarta.The Pimsleur® Method: the easiest, fastest way to learn a new language. Completely portable, easily downloadable, and lots of fun. Youll be speaking and understanding in no time flat!This course teaches Standard Indonesian pronunciation as spoken in and around Jakarta. The first ten Units of Pimsleur's 30-Unit Indonesian Comprehensive Program, replaces the Compact Indonesian. Indonesian Phase 1, Lessons 1-30 includes 15 hours of spoken language practice and one hour of reading instruction in thirty, 30-minute lessons.In the first 10 lessons, youll cover the basics: saying hello, asking/giving information, scheduling a meal or a meeting, asking/giving directions, and more. Youll be able to handle minimum courtesy requirements, understand much of what you hear, and be understood at a beginning level, but with near-native pronunciation skills.In the next 10 lessons, youll build on what youve learned. Expand your menu, increase your scheduling abilities from general to specific, start to deal with currency and exchanging money, refine your conversations and add over a hundred new vocabulary items.In the final 10 lessons of Phase 1, youll be speaking and understanding at an intermediate level. In this phase, more directions are given in the target

language, which moves your learning to a whole new plane. Lessons include shopping, visiting friends, going to a restaurant, plans for the evening, car trips, and talking about family. Youll be able to speak comfortably about things that happened in the past and make plans for the future.Reading Lessons begin in Unit 11 and provide you with an introduction to reading Indonesian. These lessons are designed to teach you to sound out words with correct pronunciation and accent. In addition, combined Reading Lessons from all the units are included at the end. A Reading Booklet to be used with the audio lessons is also included in PDF format.
