Sommario/riassunto	"The continuing adventures of Christopher Sinclair, mechanical engineer turned priest of war. Our hero faces evil on two fronts: a friend turned murderer by the power of magic, and an entire nation of murderous wolf-men. One he has to save from the vengeful clutches of the Druids, and the other from the mercenary greed of the king. But the true enemy is despair: the shame of a man who has done terrible things, and the madness of a man who is doing terrible violence. Can Christopher pick a path through broken and bloody bodies that still leaves room for goodness?"--
