

1. Record Nr.	UNINA9910151786303321
Titolo	Rocky Mountain Geo-Conference 2016 / edited by Jere A. Strickland
Pubbl/distr/stampa	Reston, Virginia : , : American Society of Civil Engineers, , 2016 ©2016
ISBN	1-5231-1298-0 0-7844-8025-7
Descrizione fisica	1 online resource (242 pages) : color illustrations, photographs
Collana	Geotechnical Practice Publications ; ; Number 10
Disciplina	624.15109788
Soggetti	Geotechnical engineering - Colorado Geotechnical engineering - Rocky Mountains Landslide hazard analysis - Colorado Landslide hazard analysis - Rocky Mountains
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Proceedings of the 2016 Biennial Rocky Mountain Geo-Conference, held in Golden, Colorado, November 4, 2016. Sponsored by the Geo-Institute Chapter of the Colorado Section of the American Society of Civil Engineers, Mile High Chapter of the Association of Environmental and Engineering Geologists, Colorado Association of Geotechnical Engineers, and the Geo-Institute of the American Society of Civil Engineers. Geotechnical Practice Publication No. 10 contains 15 peer-reviewed papers on the complex geotechnical challenges in the Rocky Mountain region. Topics include: the evaluation, design, and rehabilitation of earthen dams; debris flows and landslide mitigation; compaction and low mobility grouting; seepage analysis on levees; drill parameters; load testing; and tunneling. GPP 10 focuses on geotechnical practice and experience in Colorado and the Rocky Mountain West; however, it will be of interest to practitioners working in any similar geologic setting.
