1.	Record Nr.	UNINA9910153094403321
	Autore	De Veaux Richard D.
	Titolo	Intro stats / / Richard D. De Veaux, Paul F. Velleman, David E. Bock
	Pubbl/distr/stampa	Harlow, England : , : Pearson, , [2014] Â©2014
	ISBN	1-292-03570-6
	Edizione	[Pearson new international edition, Fourth edition.]
	Descrizione fisica	1 online resource (865 pages) : color illustrations
	Disciplina	519.5
	Soggetti	Statistics
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	"Pearsonal New International Edition."
	Nota di contenuto	Cover -- Table of Contents -- 1. Stats Starts Here -- 2. Displaying and Describing Categorical Data -- 3. Displaying and Summarizing Quantitative Data -- 4. Understanding and Comparing Distributions -- 5. The Standard Deviation as a Ruler and the Normal Model -- 6. Scatterplots, Association, and Correlation -- 7. Linear Regression -- 8. Regression Wisdom -- Exploring Relationships Between Variables -- 9. Understanding Randomness -- 10. Sample Surveys -- 11. Experiments and Observational Studies -- Gathering Data -- 12. From Randomness to Probability -- 13. Probability Rules! -- 14. Random Variables and Probability Models -- Randomness and Probability -- 15. Sampling Distribution Models -- 16. Confidence Intervals for Proportions -- 17. Testing Hypotheses About Proportions -- 18. Inferences About Means -- 19. More About Tests and Intervals -- From the Data at Hand to the World at Large -- 20. Comparing Groups -- 21. Paired Samples and Blocks -- 22. Comparing Counts -- 23. Inferences for Regression -- Assessing Associations Between Variables -- 24. Analysis of Variance -- 25. Tables and Selected Formulas -- Index -- 6.
	Sommario/riassunto	Were you looking for the book with access to MyStatLab? This product is the book alone and does NOT come with access to MyStatLab. Buy the book and access card package to save money on this resource. Richard De Veaux, Paul Velleman, and David Bock wrote Intro Stats with the goal that students and instructors have as much fun reading it as they did writing it. Maintaining a conversational, humorous, and

informal writing style, this new edition engages students from the first page.   The authors focus on statistical thinking throughout the text and rely on technology for calculations. As a result, students can focus on developing their conceptual understanding. Innovative Think/Show/Tell examples give students a problem-solving framework and, more importantly, a way to think through any statistics problem and present their results.   New to the Fourth Edition is a streamlined presentation that keeps students focused on what's most important, while including out helpful features. An updated organization divides chapters into sections, with specific learning objectives to keep students on track. A detailed table of contents assists with navigation through this new layout. Single-concept exercises complement the existing mid- to hard-level exercises for basic skill development. This text is also available with MyStatLab™--please see the Features section or visit www.mystatlab.com for more information.
