How Things Are Done -- English Translations of Dialogues -- Index.
Sommario/riassunto	Learning American Sign Language: Levels I & II--Beginning & Intermediate, Second Edition, is a major revision of the First Edition, designed to help learners successfully interact with deaf American Sign Language (ASL) users. Written by two leading authorities in the field, the text is used as the basic text for a one-semester or full-year course in ASL. Lessons are structured around language needed for common-life situations, and examples are presented in the form of dialogues coupled with grammar and vocabulary instruction. Information is also included about the culture of Deaf people in the United States. The book is supported by a new videotape and an instructor's manual.
