

1. Record Nr.	UNINA9910153182403321
Autore	Stauffer Matt
Titolo	Laravel up and running : a framework for building modern Php apps // Matt Stauffer
Pubbl/distr/stampa	Beijing, [China] : , : O'Reilly, , 2017 ©2017
ISBN	1-4919-3607-X 1-4919-3606-1
Edizione	[First edition.]
Descrizione fisica	1 online resource (454 pages)
Disciplina	005.2762
Soggetti	PHP (Computer program language)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Why Laravel? -- Setting up a Laravel development environment -- Routing and controllers -- Blade templating -- Frontend components -- Collecting and handling user data -- Artisan and tinker -- Database and eloquent -- User authentication and authorization -- Requests and responses -- The container -- Testing -- Writing APIs -- Storage and retrieval -- Mail and notifications -- Queues, jobs, events, broadcasting, and the scheduler -- Helpers and collections.
Sommario/riassunto	What sets Laravel apart from other PHP web frameworks? Speed and simplicity, for starters. This rapid application development framework and its vast ecosystem of tools let you quickly build new sites and applications with clean, readable code. With this practical guide, Matt Stauffer—a leading teacher and developer in the Laravel community— provides the definitive introduction to one of today's most popular web frameworks. The book's high-level overview and concrete examples will help experienced PHP web developers get started with Laravel right away. By the time you reach the last page, you should feel comfortable writing an entire application in Laravel from scratch. Dive into several features of this framework, including: Blade, Laravel's powerful, custom templating tool Tools for gathering, validating, normalizing, and filtering user-provided data Laravel's Eloquent ORM for working with the application's databases The Illuminate request object, and its role in the application lifecycle PHPUnit, Mockery, and PHPSpec for testing

your PHP code Laravel's tools for writing JSON and RESTful APIs
Interfaces for file system access, sessions, cookies, caches, and search
Tools for implementing queues, jobs, events, and WebSocket event
publishing Laravel's specialty packages: Scout, Passport, Cashier, Echo,
Elixir, Valet, and Socialite
