Nota di contenuto	pt. I. Introduction -- pt. II. EU institutions -- pt. III. Member states and neighbouring European states -- pt. IV. Civil society : business and environmental groups -- pt. VI. Conclusion.
Sommario/riassunto	This book, which has been written by leading experts, offers a critical analysis of the EU leadership role in international climate change politics. It focuses on the main EU institutions, core EU member states and central societal actors (businesses and environmental NGOs). It also contains an external perspective of the EU's climate change leadership role with chapters on China, India and the USA as well as Norway. Four core themes addressed in the book are: leadership, multilevel and polycentric governance, policy instruments, and the green and low carbon economy.
