

1. Record Nr.	UNINA9910153255503321
Autore	Hogg Robert V.
Titolo	Probability and statistical inference // Robert V. Hogg, Elliot A. Tanis, Dale L. Zimmerman
Pubbl/distr/stampa	Harlow, United Kingdom : , : Pearson, , 2015
ISBN	1-292-06256-8
Edizione	[Ninth edition, Global edition.]
Descrizione fisica	1 online resource (556 pages.) : illustrations
Disciplina	519.2076
Soggetti	Mathematical statistics Probabilities Libros electronicos.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Incluye indice.
Sommario/riassunto	For a one- or two-semester course; calculus background presumed, no previous study of probability or statistics is required. Written by three veteran statisticians, this applied introduction to probability and statistics emphasizes the existence of variation in almost every process, and how the study of probability and statistics helps us understand this variation. Designed for students with a background in calculus, this book continues to reinforce basic mathematical concepts with numerous real-world examples and applications to illustrate the relevance of key concepts.--
