Sommario/riassunto	This exploration of one of the most concentrated immigrant communities in Britain combines a fascinating narrative history, an original theoretical analysis of the evolving relationship between progressive left politics and ethnic minorities, and an incisive critique of political multiculturalism. It recounts and analyses the experiences of many of those who took part in over six decades of political history that range over secular nationalism, trade unionism, black radicalism, mainstream local politics, Islamism and the rise and fall of the Respect Coalition.
