Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Here, David Scharia explains how the Supreme Court of Israel developed unconventional judicial review tools and practices that allowed it to provide judicial guidance to the Executive in real-time. In this book, he argues that courts could play a much more dominant role in reviewing national security, and demonstrates the importance of intensive real-time inter-branch dialogue with the Executive, as a tool used by the Israeli Court to provide such review.
