Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This study explores the career and legacy of Don Luis de Velasco, an early modern indigenous translator of the sixteenth-century Atlantic world who travelled far and wide and experienced nearly a decade of Western civilisation before acting decisively against European settlement. The book attends specifically to the interpretive and knowledge-producing roles played by Don Luis as a translator acting not only in native-European contact zones but in a complex arena of inter-indigenous transmission of information about the hemisphere.
