Emmerman -- Dignity, Captivity, and an Ethics of Sight / Lori Gruen -- Coercian and Captivity / Lisa Rivera.
Sommario/riassunto	In the US roughly 2 million people are incarcerated; billions of animals are held captive (and then killed) in the food industry every year; hundreds of thousands of animals are kept in laboratories; thousands are in zoos and aquaria; millions of 'pets' are captive in our homes. Though conditions of captivity vary widely for humans and for other

animals, there are common ethical themes that imprisonment raises. This volume brings together scholars, scientists, and sanctuary workers to address the ethical issues captivity raises.
