| Nota di contenuto | War and the new millennium -- Imperial versus humanitarian wars -- From just war to false peace -- Force rules -- Wars of global welfare -- Great power security -- Failed states. |
| Sommario/riassunto | 'Point of Attack' argues that the time has come to replace the international rules of war. Current law permits nations to resort to force only in self-defence or under UN authority, which perversely allows mass civilian killings, civil wars, weapons proliferation, and terrorism to run rampant. A new approach should allow the great powers to intervene when a war would benefit global welfare more than the costs. |
