Impact blunted for Europe: Renaissance Europe and America : a blunted impact? / John H. Elliott.

Sommario/riassunto

This volume reflects the advances in research and methodology that have been made since 1960, as well as the increasing number of topics covered by the historiography of the European expansion. The studies selected demonstrate the range of this material, focusing in particular on the beginnings of trans-oceanic expansion by the Iberian powers. The volume has the further purpose of showing how the early encounters set precedents for subsequent patterns of interaction.
