Sommario/riassunto	"Federal surface transportation programs are currently funded primarily through taxes on motor fuels that are deposited in the highway trust fund. Although there has been some modification to the tax system, the tax rates, which are fixed in terms of cents per gallon, have not been increased at the federal level since 1993. ... This report begins with a discussion of the problems associated with the trust fund financing system (which supports both federal highway and public transportation programs) and then explores possible options for financing surface transportation infrastructure. ..."--Summary.

Nota di contenuto	1 Introduction -- 2 The Dominant Models of Judicial Review -- 3 Immigration Judicial Review -- 4 The Quality of Judicial Review and Administrative Decision-making -- 5 Types of Judicial Reviews -- 6 Claimants and costs -- 7 Conclusion.
Sommario/riassunto	This book analyses how the system of immigration judicial reviews works in practice, as an area which has, for decades, constituted the majority of judicial review cases and is politically controversial. Drawing upon extensive empirical research and unprecedented research access, it explores who brings judicial review challenges against immigration decisions and why, the type of immigration decisions that are

challenged, how cases proceed through the judicial review process, how cases are settled out of court, and how judicial review interacts with other legal and non-legal remedies. It also examines the quality of immigration judicial review claims and the quality of the initial administrative decisions being challenged. Through developing a novel account of the operation of the immigration judicial review system in practice and the lived experience of it by judges, representatives, and claimants, this book adds a significant new perspective to the wider understanding of judicial review. Joe Tomlinson is Senior Lecturer in Public Law at the University of York, UK. His research focuses on administrative law and justice. He has a particular interest in data-driven approaches and contemporary system issues. Robert Thomas is Professor of Public Law at the University of Manchester, UK. His research interests are in the fields of public and administrative law, with a particular interest in immigration and asylum law. .

The women of the Sisterhood are united by their mission to help those unable to help themselves. But now they've encountered opponents who share a unique bond of their own. The law firm of Queen, King, Bishop & Rook - the Chessmen - has been a formidable force in Washington, D.C., for decades. And Sisterhood member Nikki Quinn's new case has made her their prime target. Nikki has agreed to represent Livinia Lambert as she files for divorce from her domineering, greedy husband, Wilson "Buzz" Lambert. Buzz, currently Speaker of the House, fears the scandal will scupper his presidential plans, and intends to make life extremely difficult for Livinia - with the Chessmen's help. The Chessmen may play dirty, but the Sisterhood play smart. For too long, the Chessmen have believed themselves above the law they pretend to serve, but there's no statute of limitations on the Sisterhood's particular brand of justice - or their loyalty ...
