Disciplina	823/.914
Soggetti	Forensic scientists Cold cases (Criminal investigation) FICTION / Mystery & Detective / Police Procedural Mystery fiction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"Half-Scottish, half-Italian Enzo MacLeod used to be one of the top forensics experts in Scotland, and now he lives in Toulouse, working as a university professor. Divorced in Scotland and widowed in France, he has an estranged Scottish daughter and a French daughter he has raised by himself. As if his life isn't complicated enough, he soon finds himself unexpectedly in the hunt for solutions to some vexing cold cases thanks to an ill-advised wager about the power of forensic science. Meanwhile, in Paris, a man desperately seeking sanctuary flees into a church. The next day, his sudden disappearance will make him famous throughout France. Deep in the catacombs below the City of Light, MacLeod unearths disturbing clues deliberately left behind by a killer. But as the retired forensics expert draws closer to the truth, he discovers he may just wind up the next victim for his troubles"-- "Book one of Peter May's Enzo Files series introduces stranger-in-a-strange-land Scottish forensics expert Enzo MacLeod, whose formidable intellect is matched only by his complicated emotional life" --

2. Record Nr.	UNINA9910786030203321
Autore	Ham J. C. van
Titolo	Development of containerization [[electronic resource]] : success through vision, drive and technology // Hans van Ham, Joan Rijsenbrij
Pubbl/distr/stampa	Amsterdam, : IOS Press, 2012
ISBN	1-283-92042-5 1-61499-147-2
Descrizione fisica	1 online resource (336 p.)
Altri autori (Persone)	RijsenbrijJoan
Disciplina	300
Soggetti	Containerization Shipping
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Title Page; Preface; Acknowledgment; Table of Contents; Chapter 1. Containerization; Chapter 2. Prologue (until 1956); Small unit loads; Large units; Chapter 3. Take off of a concept (1956-1966); Pan-Atlantic's Sea-Land service; Trailer-ships; Cellular container ships; Expansion; Vietnam War; Matson Navigation; Other initiatives; Alaska Steamship Company; Grace Line Inc.; White Pass & Yukon Route; Other shipping lines; US railroads; Australia; Ireland; United Kingdom; Chapter 4. Standardization; Chapter 5. Covering the globe (1966-1976); Trades; US East Coast - Europe; US West Coast - Europe Canada - Europe US West Coast - Far East; Europe to Australia; Australia - Japan/Far East; Australia - North America; Europe - Far East; Europe - Caribbean; Europe - South Africa; The effect of containerization on the ports; Chapter 6. The Sea-Land SL-7 program; Vessels; Terminals; Cranes; Chapter 7. Extending the system (1976-1986); Developments per trade route; Technical modifications; Hinterland transport; Chapter 8. The straddle carrier; Chapter 9. Focus on the transport chain (1986-1996); Ship development; Developments in liner trading; Transport chain; Chapter 10. Container quay cranes Early container cranes for decades of use Increasing crane dimensions: A vessel's dictate!; Big is beautiful; small can be smart; Developments supporting crane productivity; Key issues in quay crane design; Outlook; Chapter 11. Doubled volumes, fluctuating profits (1996-

2006); Mergers and acquisitions; Ship development; Economic performance; Chapter 12. Container terminal development; 1956-1966: Early terminal designs; US pioneers showed the way; 1966-1976: A turbulent period for terminal developments; US and Canada; Far East; Europe
 1976-1986: A globalized network and signals towards automation
 1986-1996: Terminal expansions and first steps into automation;
 1996-2006: Increasing vessel sizes and continuing volume growth;
 Chapter 13. Automation; Development of building blocks for terminal automation; Automated terminal handling concept; The first automated terminal, installed by ECT; Automation continues; slower than expected; Introduction of new conceptual designs, butno applications; ICT: a critical success factor; Projects in progress; Chapter 14. Time for a break (2006-present); Ship development
 Container liner shipping business Chapter 15. Outlook on the future; Volume development; Shipping and vessel developments; Ports and terminal facilities; Inland transportation; Information and communication technology; Concluding remarks; References; Curricula Vitae
