Smith and David G. Victor -- What can individuals do? / Harold Coward.
Sommario/riassunto	Drought, floods, hurricanes, forest fires, ice storms, blackouts, dwindling fish stocks...what Canadian has not experienced one of these or more, or heard about the "greenhouse" effect, and not wondered what is happening to our climate? Yet most of us have a poor understanding of this extremely important issue, and need better,

reliable scientific information. Hard Choices: Climate Change in Canada delivers some hard facts to help us make some of those hard choices. This new collection of essays by leading Canadian scientists, engineers, social scientists, and humanists off
