

1. Record Nr.	UNINA9910154736003321
Autore	Hobson Art
Titolo	Tales of the quantum : understanding physics' most fundamental theory / / Art Hobson
Pubbl/distr/stampa	New York, New York : , : Oxford University Press, , 2017 ©2017
ISBN	0-19-938424-X 0-19-938423-1
Descrizione fisica	1 online resource (305 pages) : illustrations
Disciplina	530.12
Soggetti	Quantum theory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	""Tales of the Quantum" is a discussion of the fundamental principles of quantum physics for the non-scientific reader. Hobson brings together examples that illustrate the simple and logical consistency of what otherwise is viewed as a largely unapproachable topic for anyone but physicists. The book condenses topics like force, motion, and electromagnetism"--
