National and International Agricultural Policy.

Sommario/riassunto

For courses in Human Geography. A distinctly modern look at human geography Described as "fresh, innovative, and intelligent," Human Geography: Places and Regions in Global Context is acclaimed for its global approach, conceptual rigor, engaging real-world applications, and outstanding visual program. Knox and Marston foster awareness of current issues and developing trends from a geographic perspective, and provide a solid foundation in the fundamentals of human geography. The authors integrate compelling local, regional, and global viewpoints to give meaning to people and places. By providing access to the latest ideas, concepts, and theories, the text deepens students' understanding of the interdependence of places and regions in a globalizing world. The Seventh Edition extends Knox/Marston's modern approach, integrating new technology as well as new visual and thematic features relevant to human geography today. MasteringGeography™ not included. Students, if MasteringGeography is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. MasteringGeography should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. MasteringGeography is an online homework, tutorial, and assessment product designed to personalize learning and improve results. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.
