Sommario/riassunto	For courses in Elementary French. Building on the success of earlier editions and anchored in the most current innovations in language instruction, the Fourth Edition of Chez nous offers a richly nuanced focus on the Francophone world through a highly integrative and process-oriented approach to the development of language skills that emphasizes the "Five C's" and is consistent with the National Standards. The Fourth Edition Chez nous is a complete elementary French program designed for use at colleges and universities, over two or three terms or semesters. Using a careful progression from skill-developing to skill-using activities and a sophisticated treatment of Francophone culture, the text and its full complement of supplementary materials help students develop listening, reading, speaking, and writing skills as

well as insights into other cultures by exposing them to authentic, contemporary French and encouraging them to express themselves on a variety of topics.
