Sommario/riassunto	Could archaeologists benefit contemporary cultures and be a factor in solving world problems? Can archaeologists help individuals? Can archaeologists change the world? These questions form the root of "archaeology activism" or "activist archaeology": using archaeology to advocate for and affect change in contemporary communities. Archaeologists currently change the world through the products of their archaeological research that contribute to our collective historical and cultural knowledge. Their work helps to shape and reshape our perceptions of the past and our unders

Sommario/riassunto

Originally published in 1994, and now a feminist classic, *Dislocating Masculinity* offers a penetrating critique of writing on and by men. Bringing together anthropologists, sociologists, linguists and historians, it raises important comparative questions about how gender operates, addressing issues of embodiment, agency, gender inequality and the variety of masculine styles.
