Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (pages 234-272) and index.
Nota di contenuto	Introduction -- 1. A conceptual framework -- 2. The shaping factors of regional insecurity and conflict in the formulation of contemporary Saudi and Iranian foreign policy -- 3. Saudi foreign policy: Oil, Wahabism and 'Riyal Politik' -- 4. Iranian foreign policy: The politics of civilization, security and economy -- 5. The triangulation of US foreign policy towards the Middle East -- 6. Conclusions: Economic factors in Middle East foreign policies -- Notes -- Bibliography -- Index.
Sommario/riassunto	"Saudi Arabia, with its US alliance and abundance of oil dollars, has a very different economic story to that of Iran, which despite enormous natural gas reserves, has been hit hard by economic, trade, scientific and military sanctions since its 1979 revolution. Robert Mason looks at

the effect that economic considerations (such as oil, gas, sanctions, trade and investment) have had on foreign policy decision-making processes and diplomatic activities. By examining the foreign policies of Saudi Arabia and Iran towards each other, and towards the wider Middle East and beyond, Mason seeks to highlight how oil policy, including oil production, pricing and security of supply and demand, is the paramount economic factor which drives the diplomacy and rivalry of these two pivotal regional powers. His book thus offers vital analysis for researchers of international relations in the Middle East and the processes involved in the formation of foreign policy. -- Amazon."-- Bloomsbury Publishing.
