Sommario/riassunto	The touchstones of Gothic monumental art in France - the abbey church of Saint-Denis and the cathedrals of Chartres, Reims, and Bourges - form the core of this collection dedicated to the memory of Anne Prache. The essays reflect the impact of Prache's career, both as a scholar of wide-ranging interests and as a builder of bridges between the French and American academic communities. Thus the authors include scholars in France and the United States, both academics and museum professionals, while the thematic matrix of the book, divided into architecture, stained glass, and sculpture, reflects the multiple media explored by Prache during her long career. As a whole, the volume provides a window onto key directions in the study of
