Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. The Dharma of development : a conceptual framework -- pt. 2. The case studies -- pt. 3. Beyond the age of aid.
Sommario/riassunto	This book challenges and critiques human development as practiced since the end of World War II. Nepal can be viewed as a kind of laboratory for studying the effectiveness and success of global human developments, with nearly all theories and practices attempted here since 1945. As such, it constitutes a rich grounded database allowing the editors and contributors to theorize about aid, development and technology in the 20th century and beyond.
