Western and Chinese commercial thinking.
Sommario/riassunto	"China has changed dramatically since the first edition of Doing Business in China was published in 2000, but the second, third and now this fourth edition have kept pace with the rapid developments. China is now far more international but the fundamental business culture has not altered greatly. The new edition of this highly successful textbook offers Western and non-Chinese businesspeople a theoretical framework for the understanding of business practices, markets, negotiations, organizations, networks and the Chinese business context."--
