Wright Mills and the sociological imagination / Gary Rolfe -- Nursing theory, social theory, and philosophy of science / Robyn Bluhm -- On cow-tapulting and raised drawbridges : an argument for strategic integration of social theory into nursing / Barbara Pesut -- Social and sociological theory : reimagining nursing's disciplinary identity / Martin Lipscomb -- Critical realism : a social theory for evidence-based nursing / Sam Porter -- Using theory in qualitative research : a realist perspective / Joseph Maxwell -- The purpose and scope of sociological theory : implications for nursing / Stuart Nairn -- Foucault, social theory, and nursing research : a critique / Kirsten Frederiksen and Kirsten Beedholm -- Contemporary political debates, social theory, and nursing practice in mental healthcare / Dawn Freshwater -- Feminism and nursing : an un/easy alliance of silences and absences / Kay Aranda -- It's all in the genre : sociological speculation and theorizing in the nursing literature / Derek Sellman -- Lies, damned lies, and stories : nursing, narrative, numbers / John Paley.
Sommario/riassunto	What is the value of social theory to nursing? What are the implications of overlooking or excluding the social for nursing knowledge and practice? These are some of the questions debated in this lively new

book which aims to tease out the tensions, contradictions and synergies between two starkly different intellectual paradigms. Leading scholars consider how social theories have infiltrated nursing, whether the outcome has been productive or not, and what solutions are available to answer some of the challenges posed. Exploring the philosophical, theoretical, empirical and political dimensions of its subject, this is a robust and wide-ranging analysis and critique.
