Sommario/riassunto	<p>They were like sisters, until everything changed one summer night. Fourteen years later, they find themselves living in different countries with no communication. Anna has landed her dream job and is living a fast-paced life in Dublin, Ireland. When she's diagnosed with a serious disease, she is forced to take on the biggest challenge she has ever encountered. Mia has found the love of her life and is living a glamorous life in Vienna, Austria when she finds out what happened to her old friend. Circumstances bring the two women together again, but is it too late for them to rebuild what they had? What really happened all those years ago? Together they embark on a journey to confront their pasts, and on the way they acquire life-changing insight and new perspectives. Life Happens is a touching story about friendship, career, and the biggest question of them all-why do so many of us avoid change until faced with hardship?</p>
