Livello bibliografico	Monografia
Sommario/riassunto	<p>This volume is a tribute to Jean-Louis Guereña, a distinguished historian whose research encompasses the history of education, sociability, and sexuality. The book compiles contributions from experts in these fields, reflecting Guereña's diverse interests and his impact on both French and Spanish cultural studies. It highlights his role as a mediator between French and Spanish academic circles, his dedication to exploring understudied historical topics, and his commitment to advancing knowledge through education. The intended audience includes scholars and students of history and cultural studies, particularly those interested in Franco-Spanish relations and the social history of the 19th and 20th centuries.</p>
