

1. Record Nr.	UNINA9910155223503321
Autore	Joseph Clara A. B
Titolo	The agent in the margin : Nayantara Sahgal's Gandhian fiction // Clara A.B. Joseph
Pubbl/distr/stampa	Waterloo, Ont., : Wilfrid Laurier University Press, c2008
ISBN	9781299313224 1299313221 9781554582815 1554582814
Edizione	[1st ed.]
Descrizione fisica	1 online resource (218 p.)
Disciplina	823.914
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Preface; Introduction: Agency in the Margins: Althusser, Gandhi, Sahgal; Chapter One: The Interpellated "I": Gandhian Ideology and the Autobiographical Genre; Chapter Two: The Thinking Subject: Virginity and Swaraj; Chapter Three: The Special Place of Literature: Mahasati, Satyagrahi; Chapter Four: Overdetermination and Truth; Chapter Five: The Resisting Subject: Dignity of Lesser Breeds; Conclusion: Representing the Human Person; Works Cited; Index
Sommario/riassunto	The Agent in the Margin: Nayantara Sahgal's Gandhian Fiction is a comprehensive study of the literary works of Nayantara Sahgal, daughter of Vijaya Lakshmi Pandit-the first woman president of the United Nations General Assembly-and niece of Jawaharlal Nehru, India's first prime minister. Clara A.B. Joseph introduces Mahatma Gandhi's political and philosophical to literary analysis and utilizes non-structuralist aspects of Louis Althusser's theories of ideology to trace how characters marginalized by gender, class, race, and language in Sahgal's work assume agency, challenging postst

2. Record Nr.	UNINA9910298961203321
Autore	Ehrig Hartmut
Titolo	Graph and model transformation : general framework and applications // by Hartmut Ehrig, Claudia Ermel, Ulrike Golas, Frank Hermann
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2015
ISBN	3-662-47980-X
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (468 p.)
Collana	Monographs in Theoretical Computer Science. An EATCS Series, , 1431- 2654
Disciplina	511.5
Soggetti	Computers Software engineering Categories (Mathematics) Algebra, Homological Theory of Computation Software Engineering/Programming and Operating Systems Category Theory, Homological Algebra
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	General Introduction -- Graph Transformation -- Model Transformation -- Adhesive and M-adhesive Categories -- M-adhesive Transformation Systems -- Multi-amalgamated Transformations -- Model Transformation and Model Integration -- Analysis of Model Transformations -- Model Synchronisation -- Modelling and Static Analysis of Self-adaptive Systems by Graph Transformation -- Enterprise Modelling and Model Integration -- Tool Support -- App. A, Basic Notions of Category Theory -- App. B, Proofs and Additional Properties -- References -- Index.
Sommario/riassunto	This book is a comprehensive explanation of graph and model transformation. It contains a detailed introduction, including basic results and applications of the algebraic theory of graph transformations, and references to the historical context. Then in the main part the book contains detailed chapters on M-adhesive categories, M-adhesive transformation systems, and multi-

amalgamated transformations, and model transformation based on triple graph grammars. In the final part of the book the authors examine application of the techniques in various domains, including chapters on case studies and tool support. The book will be of interest to researchers and practitioners in the areas of theoretical computer science, software engineering, concurrent and distributed systems, and visual modelling.
