Sommario/riassunto	Exploring the main developments and challenges for the right to family life in the context of European integration, this book examines the right to family life in the EU Charter of Fundamental Rights and the interplay between family life, citizenship, and free movement; it analyzes the combined impact of the EU and the European Convention on Human Rights on the concept of the family protected by the law in light of recent case law. Considering the broadening understanding of what constitutes family, the challenges for the right to family life in the context of immigration, and the protection of families and social rights it provides a comprehensive overview of the current state of family life in the European Union.
