

1. Record Nr.	UNINA9910155306903321
Autore	Roth Andreas
Titolo	Orthopedic and Trauma Findings : Examination Techniques, Clinical Evaluation, Clinical Presentation // by Andreas Roth
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2017
ISBN	3-662-53147-X
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XII, 215 p. 159 illus., 153 illus. in color.)
Disciplina	617.47
Soggetti	Orthopedics Traumatology Rehabilitation Surgical Orthopedics Traumatic Surgery Conservative Orthopedics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Spine: History -- Systematic investigation -- Main symptoms -- Diseases. Upper limb: History -- Systematic investigation -- Main symptoms -- Diseases. Lower limb: History -- Systematic investigation -- Main symptoms -- Diseases.
Sommario/riassunto	This book is a practical, step-by-step guide to orthopedic examination and diagnosis. The author explains a systematic classification of clinical findings that has proven very useful in diagnosing orthopedic disorders in daily routine. The approach to examination begins with a checklist covering the complete patient history, including subjective descriptions of complaints. This is followed by a stepwise approach to physical examination of the patient and collection of clinical findings. Photographs and illustrations clearly depict the necessary examination techniques. The main symptoms are then determined from the patient history and clinical findings, leading to a diagnosis. An overview of all relevant orthopedic conditions for each region of the body facilitates differential diagnosis and thereby completes the examination findings. This book will be of particular value for new residents in orthopedics

and trauma but will also be useful for the experienced physician as a means of refreshing knowledge or as a reference.
