Sommario/riassunto

An initial public offering (IPO) is one of the most significant events in corporate life. It follows months, even years of preparation. During the boom years of the late 1990's bull market, IPOs of growth companies captured the imagination and pocketbooks of investors like never before. This book goes behind the scenes to examine the process of an offering from the decision to go public to the procedures of a subsequent equity offering. The book is written from the perspective of an experienced investment banker describing the hows and whys of IPOs and subsequent equity issues.

emerge of the spiritual reading of the Apocalypse in the third century / Bernard McGinn -- Eusebius on Porphyry's "Polytheistic Error" / Robert Lee Williams -- A sixth-century plea against religious violence : Romanos on Elijah / I. William Countryman.

Sommario/riassunto

Astutely reading the writings of early Christianity as part of the lively conversation of the Graeco-Roman world, Robert M. Grant helped reshape the study of the New Testament and early Christianity for scholars in the United States and Europe. *Reading Religions in the Ancient World* honors his work with sixteen essays by his colleagues and students, arranged under the headings of Classical Studies, New Testament Studies and Patristic Studies. These essays reflect and extend the research interests of the honoree; signal the breadth and depth of Professor Grant's own scholarly interests and productivity; and contribute to each of these important aspects of religion in the ancient world.
