Sommario/riassunto

Der 17. Band (2015/2016) des Yearbook of Private International Law bietet wie jedes Jahr hochinteressante Informationen zu allen wichtigen Entwicklungen auf dem Gebiet des Internationalen Privatrechts. Wie wird sich der Brexit auf das IPR auswirken? Obwohl es sehr schwierig ist, bereits Einschätzungen zu treffen, befasst sich ein interessanter Beitrag mit den Folgen des Brexit auf das Zivil-, Handels- und grenzüberschreitende Familienrecht. Auch der Markt für Rechtsstreitigkeiten (litigation market) wird thematisiert. Bislang ist London ein Zentrum für internationale Schieds-, Handels-, Insolvenz- und auch Scheidungsverfahren. Wird das so bleiben? Umfassend informieren mehrere Beiträge aktuell zum grenzüberschreitenden Insolvenzrecht, einschließlich der insolvenzrechtlichen Gesetzesentwürfe der Nicht-EU-Staaten Schweiz und Norwegen. Lesenswert sind auch die diversen Informationen zu den Entwicklungen im Wohnheitsrecht in einzelnen Staaten, die Sie zusammengefasst in dieser Form nur im Yearbook XVII finden. Hinweis: Der Band erscheint in englischer Sprache.

Volume 2015/2016 of the Yearbook of Private International Law is once again an impressive collection of papers on a tremendously wide range of subjects. Topics covered by this book include an account of the works under way in the Hague for a worldwide convention on mutual recognition of judgments, a commentary on some aspects of the Hague Principles on choice of law in international commercial contracts, a discussion of the potential consequences of the Brexit referendum on human relationships involving the UK and the EU as well as an in-depth analysis of crucial aspects of international litigation before the Chinese courts. A comprehensive set of papers is devoted to cross-border insolvency – with reports on the Recast Insolvency Regulation as well as ongoing reforms in Switzerland and Norway – which is not only an area of increasing practical importance but has also come over the years to serve as a laboratory for new forms of inter-country cooperation. The customary section on national developments – on the new Spanish legislation on cross-border child abduction, immunity from jurisdiction in the United States and recognition of foreign decisions in Lebanon and Nigeria – is a testament to the global reach which is so unique to the Yearbook.
