Sommario/riassunto	This book focuses on major amendments introduced in the Brussels I regulatory framework. The contributions scrutinise the changes introduced in the Brussels Ibis Regulation, a legal instrument that presents a core of the unification of private international law rules on the European Union level. It is one of the first publications addressing all the changes in the Brussels I regulatory scheme, which takes into consideration relevant CJEU case law up to July 2016. The texts, written by legal scholars who have published extensively in the field of private international law and international civil procedure, will add to the development of EU private international law. In addition, the authors'

critical analysis may open further discussions on the topic and so benefit a consistent and harmonised application of the Regulation. In this respect the book takes a different approach than the commentaries which have so far been published. It is primarily meant for legal academics in private international law and practitioners who are regularly engaged in cross-border civil proceedings. It may also be of added value to advanced students and to those with a particular interest in the subject of international litigation and more generally in the area of dispute resolution. Vesna Lazi is a Senior Researcher at the T.M.C. Asser Instituut, an Associate Professor of Private Law at Utrecht University and Professor of European Civil Procedure at the University of Rijeka. Steven Stuij is an expert in Private International Law and an external Ph.D. candidate at Erasmus School of Law, Rotterdam.
