Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Compliant with Level AA of the Web Content Accessibility Guidelines. Content is displayed as HTML full text which can easily be resized or read with assistive technology, with mark-up that allows screen readers and keyboard-only users to navigate easily.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"Ottoman Turkey's coastal provinces in the early nineteenth century were economic powerhouses, teeming with innovation, wealth and energy a legacy of the Ottoman s outward-looking and trade-orientated diplomacy. By the middle of the century, the wide-ranging and radical process of modernisation known collectively as the Tanzimat was underway, in part a symptom of a slow decline in Ottoman financial strength. By the 1920s, the coastal cities were ghost towns. The Ottoman Crisis in Western Anatolia seeks to unpick how and why this happened. A detailed, rich and authoritative regional study, this book offers a unique and original insight into the effects of forced migration, displacement, economic re-organisation and the competing political ideologies focused on modernisation all of which are central to the study of the late Ottoman Empire."--Bloomsbury Publishing.
