Sommario/riassunto	<p>Pack Born: Book One After years of abuse in his old shifter pack, Dante found a new life with Alpha Victor. He would do anything for Victor. Anything but stay away from Jesse, the half-blood stray. But when Victor names Dante his heir, he has no choice but to accept the duties given to him even if it means relinquishing the possibility of love. He owes his life and sanity to Victor, and that's a debt Dante can never fully repay. But Dante should have known the good life couldn't last. His former alpha, Caster, is not a male who lets anything of value slip through his grasp. When rumors fly of Caster's return, Dante knows the man will stop at nothing to possess him and his talent once again. When Jesse is kidnapped and Victor falls victim to an untimely death, his worst fears are realized. His old alpha has finally returned to reclaim him. Dante must use his fears and nightmares to save Jesse and his pack, even if it means sacrificing himself.</p>
