

1. Record Nr.	UNINA9910156187303321
Autore	Krause Jörg
Titolo	Programming Web Applications with Node, Express and Pug [[electronic resource] /] / by Jörg Krause
Pubbl/distr/stampa	Berkeley, CA : , : Apress : , : Imprint : Apress, , 2017
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XIX, 198 p. 94 illus., 19 illus. in color.)
Disciplina	005.2762
Soggetti	Computer programming Web Development Programmed instructional materials.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	1. Installation Problems -- 2. The Components of an Application -- 3. Introduction to Node -- 4. The Most Important Node Modules -- 5. Introduction to Express -- 6. Introduction to Pug -- 7. Language Components of Pug -- 8. The Pug Command Line -- Appendix.
Sommario/riassunto	This book teaches you how to program modern web applications using the full Node.js platform, including Node.js on the server, Express for middleware and routing, and Pug (formerly Jade) to simplify the creation of views. Node.js is the foundation of all full JavaScript apps and plenty of books cover its full usage. This book focuses on how to use it to create server-based, modern web applications. Using Node.js alongside Express and Pug - the brand new version of Jade - you can create modern web applications solely using JavaScript. This book teaches you how to structure and build your app from scratch, and make development easy. .
