| Sommario/riassunto | <p>Book Five of the Blessed Epoch Whose hand will orchestrate the change in the world? The decade-long war with Johmatra is over, but peace hangs by a thread in Garith's kingdom. Yarrow, isolated in his island realm, refuses to abide by the treaty or to follow the dictates of the priestesses. Others--Octavian Rose among them--are uneasy with the growing military power of the temples, and the mage island of Espero remains a tenuous ally. Garith knows his people cannot weather another conflict and that infighting will leave their lands vulnerable to further invasion. The arrival of a Johmatran ambassador with his own agenda calls everyone's loyalties into question. Sides will be chosen, and the consequences of those choices will have repercussions no one can foresee. Even among the turmoil, Yarrow is determined to have his vengeance against the thirteen goddesses and heal the world's magic. But how far will he go, and what lines is he willing to cross? As unlikely alliances are forged and enemies are revealed, Prince Thane seems to be the key to forgotten knowledge that will shape the future--and some will do whatever it takes to control him.</p> |
